To Whom It May Concern:

I am writing this letter of recommendation for Clinton Kennet, professional sound engineer from CK Sound Productions.

The past thirteen years I have served as worship leader of Abundant Life Worship Center in Whippany, NJ. My responsibilities include all regular weekly worship services as well as special events, concerts, CD and recording projects, sound equipment purchasing, and sound ministry oversight. Dealing with the many aspects of professional quality worship music and live sound re-enforcement can be a nightmare. When we attempt to pick the right sound equipment for our application without the proper guidance, many painful and costly mistakes can be made. Any of this sound familiar? In my experience it is imperative to connect with the right professionals to guide you on your journey to the perfect sound scenario.

It was truly an answer to prayer being introduced to Clinton Kennet from CK Sound Productions. Clinton Kennet is a skilled professional sound engineer, who has the ability to deal with the toughest sound issues. He has been able to assist our church in answering many of our sound and technical questions. He has helped us by recommending the right equipment, training our existing sound technicians, conducting live sound re-enforcement for our concerts, running professional sound engineering clinics, and answering countless recording questions and issues. Our working relationship with Clinton has proved to be of great value to the church and continues to encourage us as we grow and face future challenges.

Clinton is a man of integrity who can be counted on to go the extra mile. His passion for his profession is contagious and is truly a breath of fresh air. I highly recommend him as an outstanding sound professional for any application. He will definitely help you in reaching all of your sound goals.

Sincerely

Donnie Rosa  
Worship Leader ALWC
