
ORAL ROBERTS
UNIVERSITY

To Whom It May Concern:

Clinton Kennett is a man of high moral character and integrity. I have known him for over nine years and his humble heart and professional audio skills set him apart from any other audio engineer I have known to this day. He has helped Oral Roberts University on many occasions and has given freely of his time and talents joyfully. His expertise in audio and vast experience with sound has been extremely beneficial for consultation on many occasions. Clinton is a man of excellence and this is exemplified in everything he does. He will be a tremendous asset wherever he is and anyone that comes across his path will be grateful to know a man that is not only trustworthy, but also a great steward of his talents and skills.

Sincerely,

A handwritten signature in black ink, appearing to read "Jose Miranda".
